SUMMARY EXPERIENCE

I am Dwi, a Front-End Developer with demonstrated working experience in JavaScript frameworks such as VueJS, ReactJS and also UI framework like Bootstrap and Tailwind CSS. Apart from that, I also learn TypeScript, NodeJS, Laravel to seek experience and building personal projects.

My design sense combined with my technical skills, allowing me to translate design challenges into interactive web solutions. In my current role, I also enjoy collaborating with cross-functional teams to share knowledge and implement best practices. I am committed to professional development and am always exploring design trends and coding techniques.
